

CALL FOR VOLUNTEERS
Shasta Wildlife Rescue & Rehabilitation
(SWRR)

Each year *SHASTA WILDLIFE* rescues and rehabilitates approximately 1500 animals per year. There's a variety of birds and mammals that have come through our doors who we have successfully released back into their natural habitat. Our dedicated volunteers have experienced the rewards of helping a sick animal get well or nurturing a baby who has been abandoned by its mama. Without our dedicated volunteers we could not survive as an organization.

If you love wildlife **YOU TOO CAN HELP** make a difference! Have you ever found a baby bird or mammal and wondered what to do? Be a member of *SHASTA WILDLIFE* and learn how to treat and respect our feathered and furry friends. Please contact me for further information. Also learn about our educational program whereby volunteers learn to be handlers of animals who cannot be released back into the wild but are still given a chance at life and educate our public to their existence.
